2017 Practices in AOO

Advice and support of creativity in a series of projects in which the study works. AOO is a small furniture company from Barcelona. AOO offers its own collection of furniture and also its creative services in commissioned furniture, always with the aim of making ordinary, functional, easy, anonymous and everyday furniture.

2017 -2018 On my own initiative or by invitation, I have worked in different shootings of photography as a model. A very good sesion with the photographer Carlota Guerrero for the Nude Label brand. Also with the photographer Lisandra Gusmerini for the jewelery designer Nathalie Schreckenberg. Another photoshoot with Paloma Wool. And another one with Jessica de Lima. In several times I have collaborated with the fashion designer Julia Martin. Although they have been works in which I have appeared as a model, in all of them I have participated and I have been able to express my opinion as creative.

Personal Interests

I express my sensitivity and originality, in aspects of the way I am, the things I observe and the works I do. I like photography and the design of things because is a special way to define thoughts in something physical. In all my works I have special dedication to aesthetics and graphic design, as well as the editorial and the layout of the content in shapes and colors.
